

The Coyote popup display system combines strength, reliability and style. It features several unique advantages over other similar Popup display systems, especially its light weight and simplistic ease of use. Compared with complicated "snap in" channel bars and delicate locking/locating systems, the Coyote uses state of the art "Rare Earth Neo Magnets" on both its channel bars and locking/location systems. These make it very quick and simple to erect and take down, with practically no "easy to break" parts. Full display systems are offered in a wide choice of configurations from basic tabletop kits to full 20' long displays. All Coyote displays are offered as curved or straight systems, single or double sided and offer the option of combining with either breath taking seamless graphic mural panels or versatile "Velcro friendly" fabric panels.

Magnetic channel bars simply snap into place in moments to form a rigid structure for your fabric or graphic mural panels.

Case converts to a counter

Fast and easy to assemble, the Coyote PopUp display frame is both light weight and strong.

Magnetic channel bars simply snap into place in moments to form a rigid structure for your fabric or graphic mural panels.

With the Coyote, spectacular graphic mural panels are simple to install.

CASE TO COUNTER CONVERSION KIT

Not only does the oval molded popup case offer internal storage for lighting and great all around protection for your Coyote portable popup display system— it can also be converted into a useful and attractive counter! The case comes complete with a solid writing surface which can be secured to the top and then either a fabric or graphic wrap can be applied to the outer face to create a dynamic counter or product platform. (Fabric or graphic wrap sold separately).
